

Greetings from the College of Engineering!

We're excited to bring you "NEXT LEVEL" for Engineers Week (E-Week) 2025 and are seeking individual and corporate partners as sponsors.

"NEXT LEVEL" is the theme for this year's E-Week - **February 17-23, 2025** - bringing together UNL students from our campuses in Lincoln and Omaha. By going "NEXT LEVEL," our engineering students will celebrate their leadership and growth in our community. At Nebraska Engineering, leadership is a core competency, and we want our engineers to develop the skills necessary for the classroom, club participation, or community engagement. While events change based on the E-Week theme, they generally include design competitions, community outreach/awareness programs, keynote speakers, networking mixers, and casual socials that bring the collegiate engineering community together.

As in past years, we are offering Diamond, Gold, Silver and Bronze level sponsorships. You can read about these sponsorship levels and benefits below or on the E-Week website at <http://engineering.unl.edu/e-week>.

To help ensure the student leaders can begin developing their budgets, please submit your donation by **Monday, Dec. 23, 2024** to receive benefits listed with each sponsorship level (in-kind donations will continue to be accepted through January 2025).

Thank you for your consideration and continued support of the College of Engineering and E-Week!

Sincerely,

Phillip Carter
