

# Nebraska AgrAbility Presents

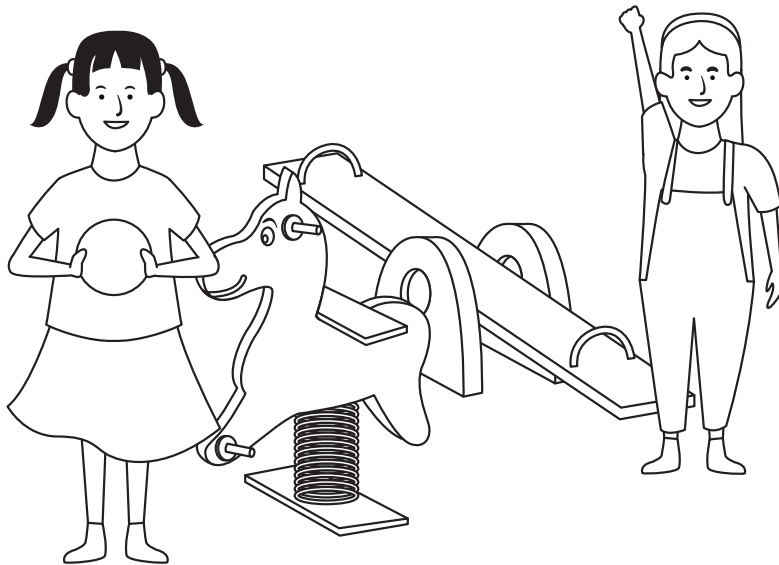

## *A FARM SAFETY COLORING BOOK*

# SAFE PLAY TIME ON THE FARM

Kids should always play in a fenced-in yard on the farm!

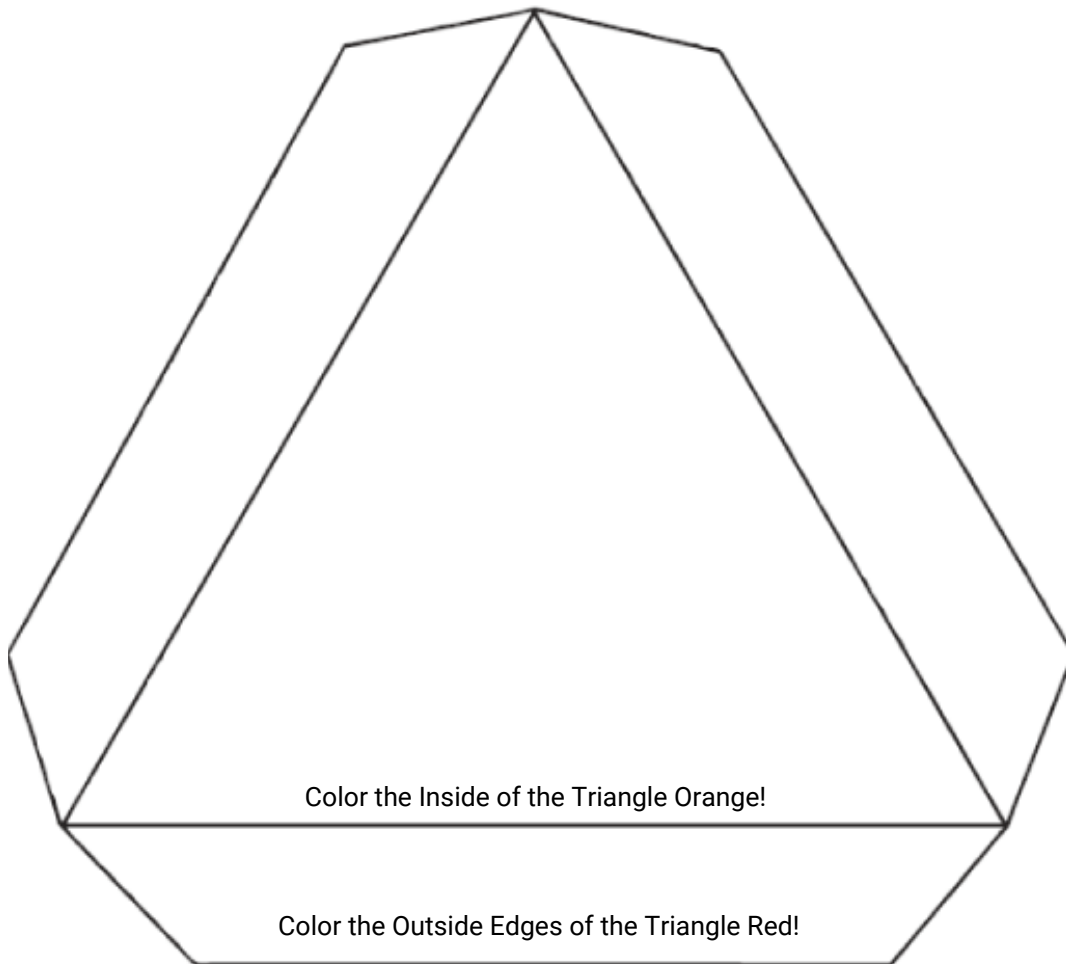

Kids at play should wear bright colored clothing outdoors to be seen by machinery operators.

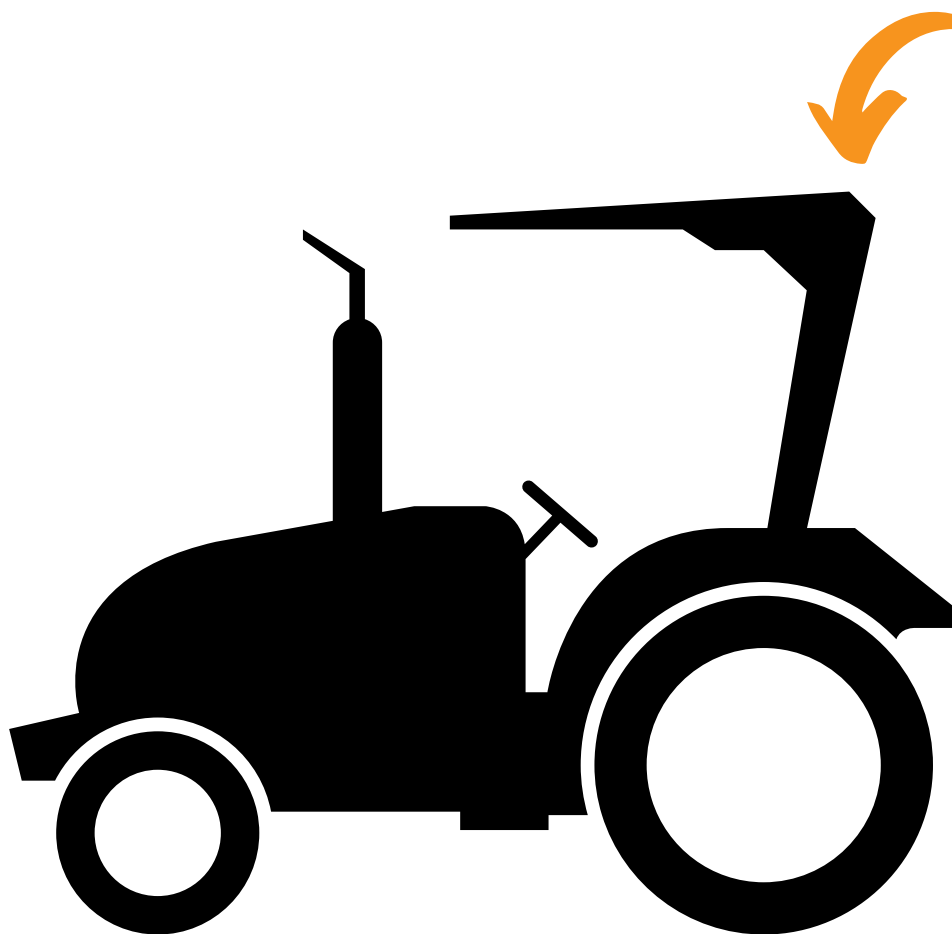

# SLOW MOVING VEHICLE (SMV) SIGN

SMV Signs are to be placed on tractors, wagons, and other farm equipment, especially when going down roadways!

# ROLLOVER PROTECTION SYTEM (ROPS)

Tractors without cabs should have a crush protection device! Rollovers can easily happen on unstable grounds or on hills. If a rollover should occur it helps keep the farmer from being crushed. The farmer must be wearing the seatbelt in order for the ROPS to be effective!

This is a ROPS.

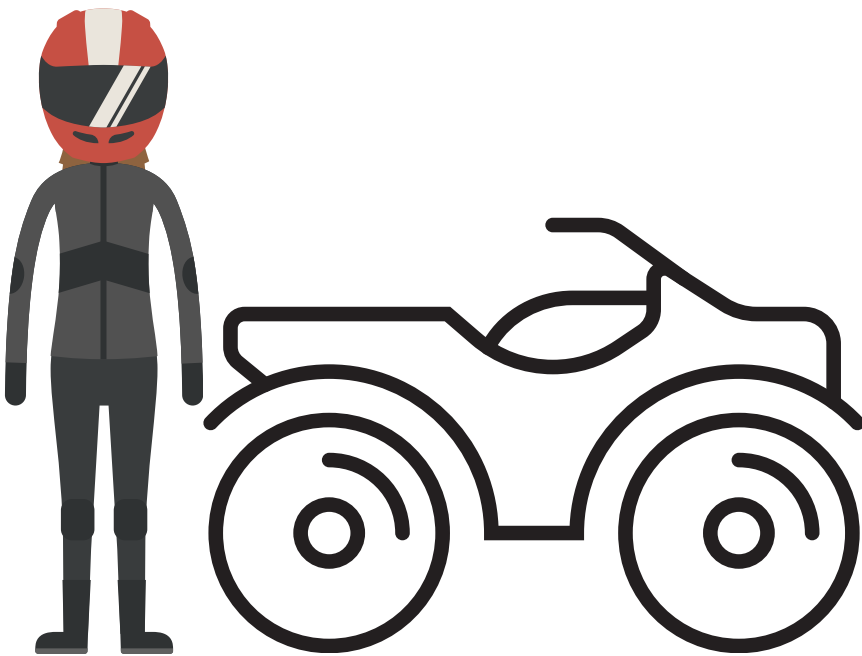

# PROPER GEAR FOR RIDING AN ALL TERRAIN VEHICLE (ATV)

RIDING ON AN ATV

# Only 1 Rider on an ATV

CHILDREN SHOULD NEVER BE ON AN  
ADULT SIZED ATV.

# TRACTOR SAFETY

No riders ever on the tractor!!!!

# POWER TAKEOFF SHAFT (PTO)

PTOs should have a shield!

Loose clothing, jewelry, and long hair could get wrapped around the PTO.

NEVER climb over the PTO while it is spinning!

You can lose an arm or leg!

# BE SAFE AROUND LIVESTOCK

All animals should be considered dangerous! Even the tamest animals can have a bad day! Always stay outside the fence!

# GRAIN SAFETY

Children should not be allowed to play near grain bins or in grain wagons. The grain can act like quicksand and pull the child down and inside the grain.

Put a RED "X"  
on top of what  
you should  
NOT be doing.

# SLEEP HELPS KEEP YOU SAFE

A good night of sleep helps you to be alert and aware of what is going on around you. This helps to keep you SAFE.

Kids and teens need much more sleep than adults!
