

HIGH-TECH ASSISTIVE TECHNOLOGY FOR THE FARM

For Farming with a Disability, Health Condition, or Functional Limitations

Assistive Technology (AT) is any item, piece of equipment, or product system -- whether acquired commercially, modified, or customized -- that is used to increase, maintain, or improve the functional capacities of individuals with disabilities.

Nebraska AgrAbility does not provide or sell these items. This is for educational purposes only. In addition to online, items may be available at hardware stores or local equipment dealers.

Contact your local dealer. prices vary

The Nebraska AgrAbility Project is a national program from the USDA-NIFA that assists farmers, ranchers & other agricultural workers with disabilities by providing resources and support they need to continue or return to working in production agriculture. Nebraska AgrAbility is a joint effort of the University of Nebraska-Lincoln Extension & Easterseals Nebraska. This material is based upon the work supported by the Extension Service, U.S. Department of Agriculture, under special project number #2022-41590-38127

NOTE: Nebraska AgrAbility cannot purchase equipment or provide farmers/rancher/ag workers with financial support. Staff may make referrals to available agricultural, vocational rehabilitation or community service organizations, some of which may be able to purchase equipment or provide financial assistance directly to the farmer/rancher/ag worker.

These products are not endorsed, sponsored, or promoted by Nebraska AgrAbility & prices may vary.
